

Wedding / Special Occasion package

Before the big day, start your manicure program to have beautiful strong, healthy natural nails for the day and beyond.

Alternatively book a couple of manicures to get your nails in better condition to receive your choice of nail enhancements.

The price is dependent on the client's nails and the desired finished effect.

Alternatively, try before you buy.

Come and have a sample enhancement applied and discuss the finish to suit you—natural, permanent French, airbrushing.

Who am I and what can I do for you?

I like to think of myself as a nail therapist rather than a nail technician or manicurist. When I started a few years ago, I came across so many people who would hide their hands and say that they would come to me once they grew their nails. This is a misconception I wish to put right.

Training

I believe that to provide the best level of care and advice, it is essential to know your subject. To that end, I have an IHBC qualification in Manicure and Pedicure. I also have an advanced "Care of the Natural Nail" certificate in Jessica techniques.

On the nail enhancement side I have trained with Creative Nail Design — one of the most respected companies in the world of nails. I hold the Creative Nail Design Master Technician status.

I have also achieved a Distinction from The Essential Nails Institute for Airbrushed Nail Art.

Appointment availability

I work from home so I can offer a personal service with the flexibility of day or evening appointments to suit the needs of my clients. You will get the best salon service without paying high class salon prices!

Together we can make a difference!
